

The Ally™

A New Standard for
Needle-free Blood Collection

HOSPITAL

Cost Savings & Technology

HOW THE ALLY WILL HELP

The Ally device is compatible with leading PIV catheters and blood collection accessories, allowing healthcare providers to offer a streamlined and comfortable experience to patients. Learn how AVIA Vascular and The Ally can improve blood draw experiences for patients and providers daily.

The needle-free alternative to blood collection that's outperforming traditional methods.

The Results:

The Ally provided viable samples using the needle-free sample collection method.
